

Within the MDF there will be due reference, consideration and policy on MSA and Mineral Consultation Areas (MCAs). If you have any views at this stage of the plan making process (MCS and MSAD stages) for the development in either general or site specific terms I would be interested to read/hear your thoughts.

Should you have any queries regarding the content of this letter please do not hesitate to contact me.

I look forward to hearing from you.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'G Staddon', with a horizontal line drawn through it.

Gary Staddon
Principal Planning Officer (Minerals and Waste Policy)
